Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

[SEQ CHAPTER \h \r 1]On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) for a limited time period based on the terms and conditions below. This registration will automatically expire April 30, 2023 except as described below:

MERGEFORMAT]

[SEQ CHAPTER \h \r 1]EPA Form 8570-6

1. You must submit the following pollinator data by the dates listed below:
 - a. Submit of all Tier II protocols for Agency review by March 31, 2021.
 - b. Submit of all Tier I pollinator data by June 30, 2022.
 - c. Submit of all Tier II studies (including the final reports) by December 31, 2022.
 - d. If the submission of Tier II studies is delayed due to circumstances that EPA agrees could not have been foreseen by, or are outside the control of AgLogic and the studies cannot be submitted by December 31, 2022 the registrant will let the Agency know by June 31, 2022 and will work with the Agency on a new timeline.
 - e. The registrant and the Agency will work on the submission timing of any Tier III studies that are triggered.

Aldicarb pollinator data requirements	
Guideline Number	Study
Non-Guideline*	(OECD 213) Honey bee adult acute oral toxicity
Non-Guideline*	(OECD 237) Honey bee larvae acute oral toxicity
Non-Guideline*	Honey bee adult chronic oral toxicity
Non-Guideline*	Honey bee larvae chronic oral toxicity
Non-Guideline**	Residues in pollen and nectar/field residue analysis

Non-Guideline**	(OECD 75) Semi-field testing for pollinators (tunnel or colony feeding studies)
850.3040***	Field testing for pollinators
*Tier I **Tier II ***Tier III. The need for Tier III test for pollinators will be determined based upon Tier II tests and/or other lines of data and the need for a refined pollinator risk assessment.	

2. You must submit an aggregated yearly summary report describing the stewardship implementation details to the Agency by May 31, 2022 and May 31, 2023 respectively for confirmatory purposes.
3. Sale and distribution of EPA Reg. No. 87895-7 is limited to 2,500,000 lbs of product per season (representing no more than 100,000 acres treated as directed on the label). Should EPA become aware that more than 2,500,000 lbs has been sold, distributed, and/or applied for the use seasons ending April 30, 2022 and April 30, 2023 respectively, the EPA will notify AgLogic, and if AgLogic is determined to be at fault, EPA may, at its sole discretion, allow the registration to expire within 10 days of such notification. Should another company apply to register an aldicarb product for use on orange and grapefruit in Florida, the Agency will notify AgLogic so a discussion about the sales and distribution limitations can occur.
4. You must submit a report of the annual sales of EPA Reg. No. 87895-7 to the EPA Product Manager by May 31, 2022 and May 31, 2023 respectively. In addition to required reporting in compliance with FIFRA Section 7, include a copy of the most recent annual production report in these annual reports to the Office of Pesticide Programs.
5. If sales and distribution of 2,500,000 pounds is reached prior to April 30, 2022 and April 30, 2023 respectively, then you must submit the annual sales report for EPA Reg. No. 87895-7 to the EPA Product Manager no later than 30 days after the last remaining product was sold and distributed for the corresponding use season.
6. You must maintain a Stewardship Plan that will include at a minimum: monitoring of product distribution for orange and grapefruit application; ensuring online education and training requirements have been completed for growers, applicators, dealers and distributors; and flagging appropriate setbacks (500 or 1,000 ft.) from all wells.
7. If the registrant chooses to seek an extension for this registration, you will be required to submit the request via a letter and an updated label for EPA Reg. No. 87895-7 with the proposed extension date to the agency by June 30, 2022.

The following will be evaluated prior to approval of the request:

- a. Pollinator studies.
- b. Current percent crop treated in Florida.

- c. Any 6 (a)(2) submissions.
 - d. Any additional information received after consultation with state and federal partners to reevaluate the current risk picture for Aldicarb.
8. If the Agency determines it will not be able to grant an extension of the registration you will be notified two months prior to the product registration expiration.
9. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy the conditions listed above in paragraphs 6 through 8, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product confirms acceptance of all of the terms and conditions described above. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 12/10/2020
- Alternate CSF 1 dated 12/10/2020
